**Andrés Soto** is a Richmond, California native, who has devoted his life to being a community organizer and activist fighting inequality and injustice in and around Richmond. Soto has been deeply involved in trying to organize Richmond communities against the Chevron refinery and to ensure that local residents get proper compensation for the destruction caused to their community and health. Soto will be joining us to share about his experiences in Richmond with the Chevron refinery.

**Cecile Pineda**

Recorded at the Troupe on June 27, 2013

<http://www.youtube.com/embed/EfrHU2AGr6Q>

**Cecile Pineda**, author of "*Devil's Tango: How I learned the Fukushima Step by Step*", will be talking to the SF Mime Troupe and their friends on June 27 about the nuclear industry, and about how the energy and the weaponry aspects are inextricably linked. At the same time, she will be addressing the harms to the environment that the industry presents in terms of soil, water, and air contamination through leakage in nuclear waste sites; and permanent contamination to soils of countries where DU has been used by The US and its NATO surrogates.
